Composer Peter McConnell joins works on Irony Curtain Score:

Agents!

Today we have a top secret, exciting message from our on headquarters! When we first announced Irony Curtain, we promised – no elevator music! That’s why we have established a Matryoshkan collaboration with an extremely esteemed, experienced agent: **Peter McConnell**.

All fans of classic point and clicks will recognize that name – such hits as the Grim Fandango or Monkey Island series would not be complete without the splendid soundtracks that enhanced the adventures of the wacky, weird heroes. **The enormously successful composer collaborated with Arkadiusz Reikowski - best known for his work on Layers of Fear, Kholat and AM’s My Brother Rabbit - on the OST to Irony Curtain**, which resulted in an larger-than-life Original Soundtrack. Peter created the Main Theme, which inspired Arkadiusz's further work on the OST - the effect of their endeavors is available on [Soundcloud](https://soundcloud.com/peter-mcconnell)[soundcloud.com] and [Bandcamp](https://arkadiuszreikowski.bandcamp.com)[arkadiuszreikowski.bandcamp.com] as we speak!

Irony Curtain from Matryoshka with Love is the satirical, classic p’n’c adventure about espionage and a bizarre, communist Matryoshka, full of no-nonsense riddles, politically incorrect jokes and vivid, intense characters you’ll be dying to meet.

I know I posted a discord before, but it turns out I don't really like it. Instead, I've moved over to Slack which fit my needs better and I'm already in a few slack channels vs. 0 discord servers.

If you have slack and want to join, you can do so here: <https://spasmanslack.herokuapp.com/>

It's free, you don't have to do patreon or whatever, that was just a dumb experiment.. **3DMark 11 Update Released:**

UL benchmarks use a component called SystemInfo to identify the hardware in your system. This patch updates SystemInfo to version 5.14.

SystemInfo 5.14. **[7-8-2018] Helicopter Hub!:**

Finally, the new Helicopter rotors have arrived!

This new part makes creating helicopters much smoother, it has an auto-stabilizing input, along with a roll and pitch input.

We currently offer 2 different propellers to choose from (more coming soon)

You can even turn off the rotational torque, making it a lot easier to build a perfect heli!

Other Fixes/Changes. **Rescue Team 4 released!:**

It's been a hectic week here at Pill Bug HQ. There have been ups and downs. We first want to thank our amazing community for being there for us throughout everything. It has been exciting watch things heat up on the leaderboard, rivalries have already formed on twitch and on the discord.

We have seen an amazing number of YouTubers and steamers play the game, so many that we decided to make an highlight reel to say thank-you.

<https://www.youtube.com/watch?v=VWaXRVgZ8Pc>

Apologies to those who we couldn't fit in this short video. Everyone has been fantastic! Please, please, go support the great channels featured in that video. One video that wasn't included in that highlight reel was Brave Sir Oingo who made the amazing video review below.

For the final video of the week, after spending most of the week sat on the couch watching other people play Cycle 28, Dave and I decided we needed to play it ourselves and show you guys how it's done.

Thanks for sticking with us, we appreciate the support. If you pick up the game make sure to let us know what you think!
