This program allows you to create your own Trivial Pursuit game. Create a quiz of up to 50 questions, use categories from the classic game, or make your own. Players can select their favorite card image to use as their player card, and even create their own. Then load the game to the Android and play the trivia game! Each question in the game has multiple answers, which means the game is much more challenging than standard Trivial Pursuit. Each question has a difficulty level, so you can adjust the game's level of difficulty to meet your players' skill levels. This Trivial Pursuit game features over 30 categories from the original game, so it can be played with many different player groups. Each question comes with its own answer sheet, and the player can look through the card to see the answers and choose the correct answer. After the game is completed, there is a question review to help improve each player's score.
