## About This Content

The second expansion for the Eastern Front tour de force Gary Grigsby's War in the East just arrived with Gary Grigsby's War in the East: Lost Battles!

This new addition to the award-winning War in the East fills out your collection of Eastern Front scenarios with a range of new and challenging battles.

Shorter scenarios like Operation Mars, Courland Pocket, Smolensk 1941, Operation Bagration, the Liberation of Leningrad and Operation Konrad bring you to some of the most interesting operations in World War II while keeping the time investment to 15 turns or less.

Added to these are medium size scenarios like the Battle for Moscow, Vistula to Berlin and Winter 1942-43, as well as the immense new Stalingrad to Berlin campaign and a new sudden death victory variant of the main 1941-1945 campaign.

## Features

- 11 scenarios that are sure to add countless more hours of gameplay to the famous War in the East game engine
- Historical notes and maps for each scenario included in an additional PDF reference manual
- Shorter engagements to help players hone their skills for larger scenarios practice offensive tactics, air support, and more

- 
- Larger, multi-month operations that decide the fate of World War II and provide the epic scale War in the East fans love like the Vistula to Berlin campaign or the Stalingrad to Berlin campaign
  - Lost Battles takes full advantage of the hefty number of new features and rule changes that come with the massive new 1.07.xx update.
